APE 2651B

Voltage & Current Generators – Battery discharger

SECONDARY INJECTION – PTR Range

- à Single or three-phased digital voltage and current supply
- à Voltage up to 300Vac (100VA) and Current up to 50Aac (200VA)
- à Manual adjustments by potentiometers or Programmable mode

SECONDARY AND PRIMARY INJECTION – GCT Range

- à Single-phased electrotechnical voltage and/or Current supply
- à Voltage up to 300V AC and current up to 200A AC (500VA)
- à Measure and memorization of voltages, currents and times

PRIMARY INJECTION – MS Range

- à Single-phased electrotechnical current supply from 500A AC up to 3000A AC
- à Control module for current and time measurements.
- à Compact and powerfull

BATTERY DISCHARGER – MDB Range

- à Discharge of all battery types up to 450 Volts
- à Regulation of the discharge current up to 300A
- à Very compact
